

Reasons to Buy Essiac Tea in Bulk

[rev_slider_vc alias="bulkessiac"]

If you are on a program of recovery from diabetes, cancer or any other malady that requires a gradual detox of your blood, cells and organs, it is best to make a habit of drinking Essiac Tea on a daily basis.

Many people who have a family history of diabetes or cancer have decided that it is best to make a daily habit of drinking the highest quality of Essiac Tea on the market, or have decided to grow their own herbs for making the tea in their backyard. When you buy a pound at a time, it lasts for 9 months if taken as suggested – 2 oz. twice a day of the concentrated tea. The savings on purchasing in bulk is as follows:

2 oz. X 8 = 16 oz. = 1 pound

If purchasing in individual packets of 2 oz. each at \$35, the cost would be \$280 (original formula)

This same amount by the pound is \$200. Plus you save on S&H costs (saving \$80 + S&H)

If purchasing in individual packets of 2 oz. each at \$70, the cost would be \$560 (extra-strength formula). This same amount by the pound is \$325. (saving \$235 + S&H)

We have had some people buy Bulk Essiac Tea (by the pound) so they can share with friends. In this way, everyone wins by the reduced cost for the product and in S&H fees.

For many who are on a program to recover their health, buying Essiac Tea in bulk makes the most "cents". Remember the old cliché "Penny-wise and pound-foolish"? This must be my motto

since I love to spend lavishly (when I am able to – and with my friends and family) but am quite penny-wise.
