The following testimonials have been received unsolicited. They have been edited to protect the identity of the person giving their testimonial and have been posted with their permission to use it as stated below. If you need additional help or have your own testimonial you are willing to share, please email Ingri at [vaclib@startmail.com](mailto:vaclib@startmail.com) Thank you for sharing!

Wanted to let you know how much essiac is helping my mother. She's been taking essiac [extra-strength] since mid-November 2017. She was originally diagnosed with stage IV lung cancer. She had difficulty breathing and had a nagging cough. By mid-January the cough was almost gone and her breathing had eased considerably. She continued to improve and although I was pretty confident the cancer was diminishing we had no hard evidence that it was, at least until last week when she had another scan done.

The results of the scan showed the tumor in her lungs has decreased by a whopping 88%. It went from the size of a coffee cup to the size of just the handle! The nodules in her lymph nodes have also decreased in size.

I thank you for doing what you do and may God bless you.

~D.S., Pennsylvania
