

Hempworx CBD Oil

What is Hemp and CBD oil?

HempWorx products are made from industrial hemp plants grown on Kentucky farms.

Cannabidiol (CBD), a constituent that naturally occurs in industrial Hemp, is just one of over 85 cannabinoids that is identified in the cannabis plant. Our oil is CO2 extracted from the entire plant resulting in a solvent free,

pure extract containing all identified cannabinoids.

Non GMO and Organic

Our oil is produced on Kentucky farms using Organic methods and is free of GMOs, synthetics, fillers, and other harmful ingredients.

Third Party Tested

Hempworx believes in 100% transparency with their customers and affiliates. Every batch of product produced gets sent out for Third Party Testing before it is the product is packed and shipped to the end user. This is the HempWorx commitment to you. A product you can count on each and every time.
